Contact Lens Agreement

We offer the latest in contact lens technology, and specialize in the difficult-to-fit patients. This includes astigmatism correcting lenses (toric), multifocal lenses, corneal diseases (like keratoconus, dry-eye, etc), and post-surgical contact lens fits. We are dedicated to your health and enjoyable, comfortable contact lens experience. As contact lenses are medical devices that have potentially vision threatening side-effects, we must insure the proper fitting and wearing of the lenses. A contact lens evaluation will be performed for all patients who wish to wear contact lenses.

A **Contact Lens Fit Evaluation** or **Re-Fit Evaluation** is necessary if the patient has no previous history of contact lens wear, is new to the office, or if there is a need/desire to change the current contact lens fit. This charge will be in addition to the comprehensive eye examination fee. This fee will cover the initial evaluation and all contact lens related follow-up visits for a period of 2 months. If necessary, it will include the cost of any additional contact lens training classes needed for those individuals needing contact lens instruction for insertion and removal of contact lenses, and contact lens care.

The Contact Lens Evaluation fee will range in price depending on the complexity of the contact lenses worn:

- **Soft Simple** Contact Lens Fit Evaluation (Soft Spherical) \$48
- **Soft Complex** Contact Lens Fit Evaluation (Toric, Extended Wear, Multifocal) \$68
- **RGP Simple** Contact Lens Fit Evaluation (RGP Spherical) \$97
- **RGP Complex** Contact Lens Fit Evaluation (RGP Toric, Bi-Toric, Multifocal) \$158
- ***Medical** Contact Lens Fit Evaluation (Keratoconus, Post-Surgical, and Dry-Eye). \$203

**Note: Follow-up visits may not be included in some Medical Fits*

A **Contact Lens Evaluation** fee is necessary to make the measurements and analysis of your vision needs in addition to the comprehensive eye examination fee. This evaluation is necessary for **renewal** of contact lens prescriptions for established patients. The Contact Lens Evaluation may also include the use of diagnostic lenses in order to allow our doctors to ensure adequate vision and the proper fit of the lenses.

The **Contact Lens Evaluation** fee will range in price depending on the complexity of the contact lenses worn:

- **Standard** Contact Lens Evaluation (Soft Spherical) \$30
- **Complex** Contact Lens Fit Evaluation (Toric, Extended Wear, Multifocal) \$50

Contact lens prescriptions are valid for 1-2 years depending on the etiology of the vision anomaly.

I have read and understand the **Annual Contact Lens Agreement** and I consent to being fit with contact lenses.
